*They may look the same on the surface...  
but there is a difference.*

*the Original. the Best.*

Unilock®, the company that changed the way people think about paving.

For over 35 years, Unilock has grown solely on the demands of the landscape industry. In fact, we focus our efforts on designing and manufacturing the finest landscape paving and wall products that can be found anywhere. Our exclusive collection of products are in high demand by landscape architects, designers and contractors across North America. That's because we are always on the forefront of what's new and different. We introduced the first concrete paver, circle paver system, tumbled paver and wall, permeable paver and textured paver in North America. Our customers have come to depend on us for new and innovative product introductions and design concepts that turn outdoor living dreams into reality.

Recently we introduced several exciting new products to our Unilock Select™ collection that once again reach new heights in design and performance. These next-generation products, Copthorne®, Courtstone®, Richcliff®, Umbriano®

and Belpasso® combine the most attractive paver designs available today with Unilock's proprietary concrete technology know-how. The result is a natural looking product that is up to 4 times stronger than conventional poured concrete, offering the best wear performance and color fastness available compared to almost any other pavement surface.

That's why we're "The Original" and "The Best" when it comes to paving stones and retaining walls. Visit our website and learn more about Ultima™ Concrete Technology, StayClean™, Auto-Align™, ColorFusion™ and Reala™. It's what makes Unilock the best choice for your home!

And lastly, you should know, because we're a family business backed by the original values and integrity upon which our company was founded, you can expect only the very best.

Ed Bryant, Founder

Unilock is a family company built on innovation and a passionate entrepreneurial spirit.

For over 35 years, we've built our family business on relationships. We're always inspired by our customer's creativity and we're passionate about providing the very best for them. It's through their expert design and installation that our products come alive with creativity and design. Architects, designers and craftsmen work hard to create incredible outdoor spaces with our Unilock Select™ collection of next-generation designer pavers, taking their designs to a whole new level.

We're committed to investing in the future and will continue to lead the landscape industry in innovation and quality. If you're planning your landscape, you'll be inspired about what you see in this design catalog.

To find out more about expert installation, great design ideas and where to buy Unilock products, visit [www.unilock.com](http://www.unilock.com) or call us at 1-800-UNILOCK or 1-800-864-5625.

# A Lifetime Guarantee of Strength

They may look the same on the surface...  
but there is a difference.

Every Unilock paver is backed by our Lifetime Guarantee\*.

Our Lifetime Guarantee has been a part of our commitment for the past 35 years. We stand behind every stone we make - just ask our customers. Unilock was the first concrete brick paver manufacturer in North America to offer a Lifetime Guarantee, and we have continued to back it up to make sure you're completely satisfied with our product. That's quite the commitment since we have over 10 billion stones on the ground! We can do this because our product is better and stronger. In fact, our internal standards of manufacturing far exceed industry standards set by ASTM, CSA and European organizations.

#### Benefits of Unilock Pavers and Walls

- Colorfast pigments
- Unaffected by frost
- Resistant to deicing salt
- Slip resistant
- Strength unaffected by gasoline or oil
- Salt and chlorine pool water resistant
- Up to 4 times stronger than conventional concrete
- Only Unilock has Ultima™, StayClean™ and ColorFusion™ Technologies

#### \* Lifetime Guarantee

Unilock provides a lifetime guarantee on the structural integrity of its paving stones to the original purchaser of the product for residential use. Material installed using our installation guidelines that proves defective will be replaced without cost. Color matching cannot be guaranteed, and replacement labor is not included. Proof of purchase is required.

# *Creating outdoor spaces of distinction.*

Our next-generation collection of paving stones and retaining walls has given this country's best designers and installers the tools to create landscapes that go beyond what was even thought possible. Unilock® has led the way with tumbled products, seat walls, pillars, unique borders, banding, textured pavers, walls and our prebuilt outdoor room features - Unilock® Elements. When it comes to design, our customers consider Unilock to be the industry's premier source for innovative products and they look to us for creative hardscape solutions.

## *Create your own masterpiece!*

We view design as a true art form. We hope that you'll agree (and create your own masterpiece).

1. **Built-in water features** with complementing paver accents are all the rage. The sound of water and the glow of lights add to a relaxing, restful backyard. Water features are also easier to maintain when compared to conventional ponds. Fountain: Brussels Dimensional System™ (Sierra) w/ Il Campo® accent

2. **Courtyards** are a popular way to add another room to your home. Front courtyards are a great place to enjoy that morning coffee or chat with neighbors and passersby at the end of the day.

Pavers: Rivenstone™ (Canyon)

Walls: Brussels Dimensional System™ (Sandstone) w/ LedgeStone™ (Buff) coping

3. **Seat walls and pillars** accented with matching pavers have become extremely popular as an attractive and practical way to define an area as well as provide additional seating for larger gatherings.

Walls: Brussels Dimensional System™ (Sandstone) w/ LedgeStone™ coping and pillar cap (Buff)

4. **Embedding matching accents** into pillars and walls is a design trend that makes every installation unique and is only limited by your imagination. Combine any complementing Unilock pavers and walls to create an entrance that will impress your visitors every time!

Pavers: Brussels Block® (Sierra) w/ Il Campo® (Heritage Brown) accent

Wall: Brussels Block® (Sierra)

Pillar: Brussels Block® (Sierra) w/ Il Campo® (Heritage Brown) accent

5. Unilock began **'The Outdoor Living Room'** concept a number of years ago. Since then, the trend has continued to grow as more and more features are added such as fireplaces, grill islands, water features and brick ovens. Create your sunken living room today!

Pavers: Brussels Block® (Sandstone/Limestone) w/ Copthorne® (Burnt Clay) accent

Tuscany Fireplace and wood boxes

6. **Fire pits with seat walls** can easily be incorporated into large or small backyards. Nothing beats spending time with friends and family around a warm and cozy fire. Can't burn wood? Install a gas log fire kit!

Pavers: Brussels Block® (Sierra) w/ Unigranite® (Rose) accent

Seatwall and Firepit: Brussels Dimensional System™ / Brussels Fullnose™

## *Art meets design!*

Creativity knows no bounds when it comes to Unilock products. By using a combination of Unilock Select™ products, the designer's imagination can be fully realized by creating signature designs that will make you want to come home and stay home. Gone are the days of basic simple flat patios. The trend today is to border, accent, and design the horizontal and vertical hardscape. Now is the time to get on board and create unbelievable outdoor spaces with Unilock Select™!

7. **Driveway** designs can be taken from the ordinary to the extraordinary by combining and sculpting signature patterns and accents into your design. Paver color and texture can be coordinated to complement the siding and trim colors of the home.

Pavers: Umbriano® (Autumn Sunset) w/ Il Campo® accents

8. There is nothing like cooking, eating and entertaining in the great outdoors. Unilock makes your dream of having your own custom **Outdoor Kitchen** a reality by having the products that make owning your own outdoor grill island, bar, or fireplace affordable. Now you can also embellish your vertical designs with the same paver accents and colors as you used in your patio for a complete harmonious design.

Pavers: Brussels Block® (Sandstone) w/ Series 3000® & Unigranite® accents

Kitchen: Brussels Dimensional System™ (Sandstone) w/ Series 3000® and Unigranite® inset

9. **Shangri-La Retreats** are becoming very popular as the cost of travel increases. Create your own little “getaway” nook for you and your loved ones as you share the warmth of a gas flame fire pit in the center of your Unilock patio.

Pavers: Umbriano® (Autumn Sunset) w/ Copthorne® (Burgundy Red) accent

Pool Coping: Brussels Fullnose™ (Sandstone)

Cordova Fireplace

## PREBUILT OUTDOOR ROOM SOLUTIONS

Outdoor fireplaces, kitchens and water features are the most sought-after landscape features today. Unilock Elements are prebuilt outdoor living features designed to add functional beauty to your backyard retreat. Constructed in a controlled environment using our high-density concrete wall and paver products, you can be assured that each unit is built with precision to exacting tolerances. Now your contractor can construct your whole outdoor living retreat in days instead of weeks!

1-800-UNILOCK | [www.unilock.com](http://www.unilock.com)

Tuscany Brick Oven

# Prebuilt outdoor room solutions

The Tuscany fireplace and grill have a beautiful curvilinear design and are made with Unilock's Brussels Dimensional Stone® and accented with Copthorne® and Brussels Fullnose™.

Cordova Water Feature

Cordova Grill Island  
All grill islands come complete with a brand name gas grill and stainless steel doors.

The Cordova fireplace and grill are designed with Unilock's Brussels Dimensional Stone® and accented with Series 3000®. They feature a more rectilinear design with clean straight edges.

Units are pre-built

## FEATURES:

- Attractive and functional
- Installs quickly
- Coordinates beautifully with new or existing Unilock paving stones
- Extends your outdoor room season
- Built to exacting standards
- Built with UL-approved fireboxes and grills (gas units available)
- Lifetime Guarantee\*

# PAVER ACCENTS

*Let your creativity run wild!*

Not unlike your interior tile project or finishing a room with crown molding, the final touch in your Unilock project lies in the border and accent designs. Only Unilock products allow you to combine unique textures, colors and styles that complement your home's exterior and color scheme. Here are some great ideas to get you started in creating your designer patio, driveway, walkway or wall.

# Transform the ordinary into the extraordinary

## ONLY UNILOCK PAVERS ALLOW YOU TO DESIGN WITH FLAIR

The following paver accent combinations are only a few of the many possibilities that illustrate what can be achieved with a little creativity. By combining complementary colors and textures from our Unilock Select™ collection, the borders and accents will beautify and customize your driveway and outdoor living area. To create your own custom accents and borders, use our new “Border and Accent Designer” at [www.unilock.com](http://www.unilock.com) today.

# WALL ACCENTS

*Match, coordinate and blend.*

Unilock is the leader when it comes to products for hardscape design. Several years ago we set the trend of incorporating borders and accents into paver patios, driveways and walkways. Now, with Unilock Select™, you can even go a step further in your design by incorporating those same beautiful accents into Unilock walls, pillars and many other vertical applications for that complete designer look.

1-800-UNILOCK | [www.unilock.com](http://www.unilock.com)

# There's so much more you can do

## DON'T JUST BUILD A WALL... DESIGN A WALL WITH UNILOCK SELECT™

Below are a few accent ideas that are only possible with Unilock walls and pavers. Unilock walls are great for incorporating accents and other designer touches and can easily be combined with Unilock Select™ pavers because they are dimensionally tolerant, have compatible colors and offer up a host of contrasting textures. Let your imagination take you into a world of great design options - only from Unilock. To create your own custom wall accents, use our new "Border and Accent Designer" at [www.unilock.com](http://www.unilock.com) today.

## Designer's dream

Unilock Select™ defines a unique set of products from Unilock that have changed the way people think about paving stones. Ordinary pavers are becoming a thing of the past. Unilock's philosophy of researching and investing into new paver technologies has made us the leader in our industry by introducing products that have incredibly unique appearances along with high performance surfaces. On the following pages you will be introduced to each of the Unilock Select products and their exclusive features. You'll see words like Ultima™, StayClean™, HD Brilliance™, ColorFusion™ and TitanTec™ - performance and aesthetic technologies exclusive to Unilock. Each year we continue to add and introduce new products with exceptional features and capabilities enabling our customers to expand their creative boundaries and design one-of-a-kind masterpieces.

#### FROM THE LEFT

Pavers: Copthorne® (3 color blend)

Pavers: Courtstone® (Basalt / Belgian Blue)

# Courtstone®

Bring a sense of old-world Europe to your design with the timeworn texture and rounded shape of Courtstone®, a paver reminiscent of the weathered basalt cobblestones used throughout the villages of the old country.

## FEATURES AND BENEFITS

### Ultima™

Ultima™ is a patented manufacturing process that creates a virtually indestructible paver with up to 4 times the strength of conventional concrete. Pavers with Ultima™ will structurally outperform any other paving surface regardless of the application.

### Auto Align™ System

The mold design applied to certain Unilock paver products makes the base portion of each stone dimensionally accurate while leaving the top portion of the stone with irregularities that reflect natural stone. This facilitates easier installation, saving you money over using irregular natural products.

### Reala™ Surface Design

We use a special mold design process whereby the molds are cast from hundreds of old and weathered bricks or natural stones. This process uniquely alters the surface of each stone to minimize any repetition of surface textures, making for a completely authentic look and feel.

### Non-slip Surface

This product features a non-slip surface, which makes the product ideal for use in almost any application. Note: Certain sealers can change the non-slip properties of this product. Testing on a small area first is recommended to ensure desired results, especially when safety is a concern.

### Multi-shape

Consistently achieve a completely random pattern with our multi-shape system.

Random bundle contains:

5½" x 8¾" x 2¾" (13cm x 21.5cm x 6cm)

5½" x 7¼" x 2¾" (13cm x 18.5cm x 6cm)

5½" x 6½" x 2¾" (13cm x 16.5cm x 6cm)

5½" x 5¾" x 2¾" (13cm x 14.5cm x 6cm)

5½" x 5½" x 2¾" (13cm x 13cm x 6cm)

# Copthorne<sup>®</sup>

With Copthorne<sup>®</sup> you can create a street paver look reminiscent of the brick pavers used in old European cities, towns and villages. Crafted using a special forming process, each piece is uniquely altered, yet the dimensions are consistent for easy, efficient installation. The result is a realistic look with the long-lasting durability of concrete.

## FEATURES AND BENEFITS

### Ultima™

Ultima™ is a patented manufacturing process that creates a virtually indestructible paver with up to 4 times the strength of conventional concrete. Pavers with Ultima™ will structurally outperform any other paving surface regardless of the application.

# Umbriano®

The random dispersing of color and granite particles is what creates the beauty of Umbriano's unique mottled surface resembling the appearance of natural granite. Umbriano®, with StayClean™, ColorFusion™ and other superior features, make it an ideal selection for driveways, pool decks, patios and even commercial plazas and offices.

## FEATURES AND BENEFITS

### ColorFusion™ Technology

This technology ensures that each stone has a random dispersing of specialized color particles resulting in a sophisticated mottled look similar to what you would see in granite. ColorFusion™ products are fade resistant.

### StayClean™

This revolutionary new in-line surfacing technology creates an easy-to-clean stain resistant surface. StayClean™ is not a coating that will wear off but rather a proprietary dirt repellent embedded right into the surface. Even deicing salts, pool water salts or chlorine will not harm pavers made with StayClean™.

### Zero-bevel Edge

This product is manufactured with a zero-beveled edge to create a clean cut edge look. This gives the product a sophisticated appearance, making it great for pool decks, patios and driveways.

### Non-slip Surface

This product features a non-slip surface, which makes the product ideal for use in almost any application. Note: Certain sealers can change the non-slip properties of this product. Testing on a small area first is recommended to ensure desired results, especially when safety is a concern.

### Multi-shape

## FEATURES AND BENEFITS

### TitanTec™

Exclusive to Belpasso®, TitanTec™ surfacing is a next-generation superior wear-performance paver, comparable to ceramic tile. This exclusive and virtually indestructible surface repels most types of dirt, oil, household staining substances and chewing gum.

### HD Brilliance™

HD-Brilliance™, exclusive to Belpasso®, describes a color retention feature that rivals ceramic tile. A rich, sophisticated and extremely colorfast surface molding process guarantees that the high-definition color and texture will not deteriorate or fade over time.

### StayClean™

This revolutionary new in-line surfacing technology creates an easy-to-clean stain resistant surface. StayClean™ is not a coating that will wear off but rather a proprietary dirt repellent embedded right into the surface. Even deicing salts, pool water salts or chlorine will not harm pavers made with StayClean™.

### Micro-bevel Edge

A micro-bevel edge defines the edge of each paver without creating a large visible V-groove. The resulting small V-groove is similar to a zero-bevel edge but gives you a little more line definition between units.

### Non-slip Surface

This product features a non-slip surface, which makes the product ideal for use in almost any application. Note: Certain sealers can change the non-slip properties of this product. Testing on a small area first is recommended to ensure desired results, especially when safety is a concern.

### Multi-shape

Consistently achieve a completely random pattern with our multi-shape system.

Rectangle: 8" x 16" x 2¾" (20cm x 40cm x 7cm)

Square: 8" x 8" x 2¾" (20cm x 20cm x 7cm)

# Il Campo®

Produced by a specialized manufacturing process, Il Campo® features etched irregular lines across each paver. It's a richly detailed look that's striking and inviting at the same time and unlike any other paver you can buy. Available in a variety of dimensionally compatible units, Il Campo® gives you the ability to create an almost unlimited variety of geometric and random patterned designs.

## FEATURES AND BENEFITS

### Unique Textures and Colors

Uniquely different in texture and in color, Il Campo® sets a new benchmark in paver design. These exclusive Unilock products will add an incredible visual dimension to your project.

### Micro-bevel Edge

A micro-bevel edge defines the edge of each paver without creating a large visible V-groove. The resulting small V-groove is similar to a zero-bevel edge but gives you a little more line definition between units.

### Superior Wear Performance

Il Campo® has specially graded granite aggregates in the surface of the paver which provide superior surface wear performance and color retention.

### Non-slip Surface

This product features a non-slip surface, which makes the product ideal for use in almost any application. Note: Certain sealers can change the non-slip properties of this product. Testing on a small area first is recommended to ensure desired results, especially when safety is a concern.

### Multi-shape

Consistently achieve a completely random pattern with our multi-shape system.

Large Square: 12" x 12" x 2¾" (30cm x 30cm x 7cm)

OAKWOOD

Rivenstone™ is certain to set your installation apart by giving it a classic, elegant appearance. Available in two nature-inspired shades, Rivenstone™ combines the durability of concrete with the character and flexibility of natural stone. It's an ideal choice for those looking to add enduring quality and timeless appeal to walkways, courtyards, pool areas, terraces and patios.

## FEATURES AND BENEFITS

### Reala™ Surface Design

We use a special mold design process whereby the molds are cast from hundreds of old and weathered bricks or natural stones. This process uniquely alters the surface of each stone to minimize any repetition of surface textures, making for a completely authentic look and feel.

### Pitched Edge Design

The pitched edges of Rivenstone™ give you an authentic quarried appearance, making it ideal for new or retrofit step treads and pool surrounds.

### Non-slip Surface

This product features a non-slip surface, which makes the product ideal for use in almost any application. Note: Certain sealers can change the non-slip properties of this product. Testing on a small area first is recommended to ensure desired results, especially when safety is a concern.

### Multi-shape

Consistently achieve a completely random pattern with our multi-shape system.

## *Timeless beauty*

Unilock introduced the paver to North America over 35 years ago, and we continue to offer a great selection of tumbled and classic pavers. When it comes to durability and design, our tumbled and classic pavers have stood the test of time and are used in almost every type of paver installation you can imagine. From residential driveways and patios to parking lots and roadways, these pavers are the mainstay of landscaping today. The trend today is to include Unilock Select™ products as accents, borders and insets into the classic paver design to create a truly unique signature look. The colors and styles of Unilock tumbled and classic pavers are also complemented by matching Unilock retaining walls. Only Unilock has all the unique paver and wall styles that transform the ordinary into the extraordinary.

# Unilock<sup>®</sup> Permeable Pavers

“When we take care of the earth,  
it will ultimately take care of us.”

Author Unknown

Traditional urban construction practices have historically diverted rainwater into storm sewers and ultimately into streams, rivers and lakes. This diversion of rainwater has resulted in over-taxed sewer systems, as well as chemically and thermally polluted waters.

Today, responsible urban design and best management practices include methods to return rain water back into the ground on site. Unilock has been at the forefront of this best practice by the introduction and development of permeable paver systems. These systems employ the use of wider joints between pavers which are filled with small stone chips to allow rapid water penetration.

Unilock's exclusive line of permeable pavement products, indicated by this symbol, are recognized and awarded with internationally accepted Leadership in Energy and Environmental Design (LEED) credits required by the Green Building Rating System™ to certify green building construction.

ECO-PRIORA™

Unilock pioneered the concept of permeable paving in North America before it was even fashionable to be “green.” Our international alliances in Europe have been actively using permeable pavements for over 20 years. Unilock eagerly embraced this new concept and began to introduce this to North American designers, planners and engineers. To date, Unilock has had more than 12 million square feet of permeable pavers installed into commercial and residential applications, making us the uncontested leader in permeable paving. The environmental benefits are so significant that residential applications of permeable pavements are being promoted by municipalities and government officials. Permeable pavements in residential applications can easily be combined with rainwater harvesting systems for outdoor seasonal uses as well.

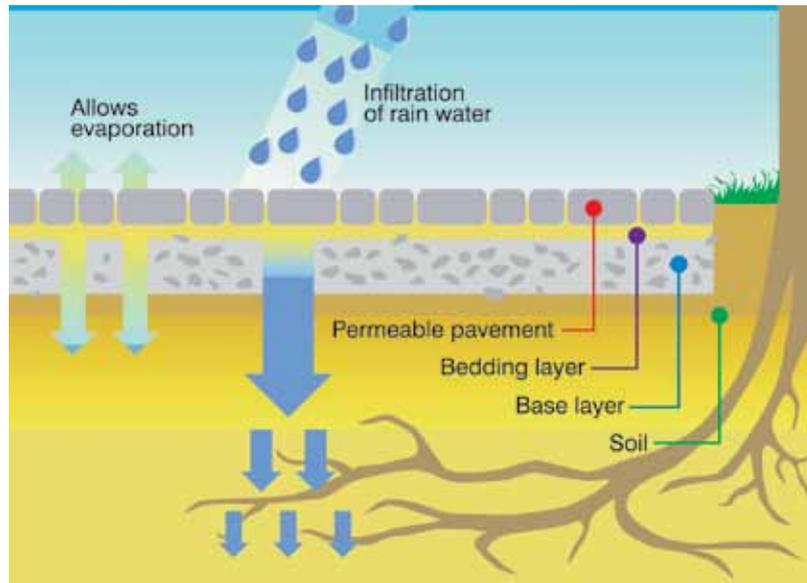

Illustration of the Unilock Permeable Pavement System

Eco-Priora (Il Campo® finish)

Unilock “Eco” products have an increased joint spacing which allows rapid rainwater infiltration.

#### Benefits of permeable paving

- reduced stormwater load
- eliminates thermal pollution of streams and rivers
- filters contaminants from water naturally
- replenishes the water table – important for trees
- enables rainwater to be easily harvested for later use

## Going vertical

Beyond the introduction of landscape walls, Unilock pioneered the concept of seat walls, pillars, fireplaces and grill islands. These vertical elements add the third dimension to create your ultimate outdoor living space. Whether you're building these vertical elements for your outdoor kitchen or constructing a large retaining wall at the back of your property, Unilock has wall systems that will not only define your outdoor space but will beautifully complement the texture and color of the pavers. Many Unilock pavers can be incorporated into the wall as accents. From the small versatile Stack Stone® units (17 lbs. / 7.7 kg ea.) to the engineered Siena Stone® wall (approx. 500 lbs. / 238 kg ea.), our wall system selection is the most comprehensive in the industry, allowing you to construct walls exceeding 25 ft. / 7.6 m in height.
